

I have been a financial supporter of K-LOVE radio for over 4 years. I feel it is an important asset in my community. It is the only form of music I listen to. This includes my 3 year old daughter. She is only exposed to appropriate Christian listening. We would be devastated to lose K-LOVE in our community. It is difficult to find programming on public radio and TV that does not have to be censored for impressionable ears. Society needs outlets like K-LOVE to remind people what is important in life - the bigger picture! Please preserve K-LOVE and don't allow LPFM to displace this valuable service!
